GENIOS CLUB

100% DECENTRALIZED SOLIDARITY MATRIX

SOLIDARITY

There is not a force more powerful than the human will.

Our mission is to create a solidarity economy system where each one of us is the engine that provokes the necessary changes to raise individual and collective quality of life.

CHANGE YOUR MIND CHANGE YOUR LIFE.

By being part of GENIOS CLUB we do not guarantee magical results.
That is why for each level acquired we offer you a course that will lead you to experience the necessary mental change to be able to achieve the financial results that each one desires.
It is the individual responsibility of each person to study and apply this knowledge and like everything in life, the results may be different from one another.

DECENTRALIZATION DAI - POLYGON

Our system works in a "decentralized" way through an automated contract that offers maximum security and sustainability.

A smart contract is a self-executing algorithm that, in this case, exists within the Polygon blockchain.

Smart contracts, like cryptocurrencies, are decentralized and work without the possibility of subsequently modifying the previously defined execution.

The code that contains all the logic of the contract is on the blockchain and millions of computers around the world provide all the calculations, this ensures that there is no risk of hacking the smart contract or stopping the project.

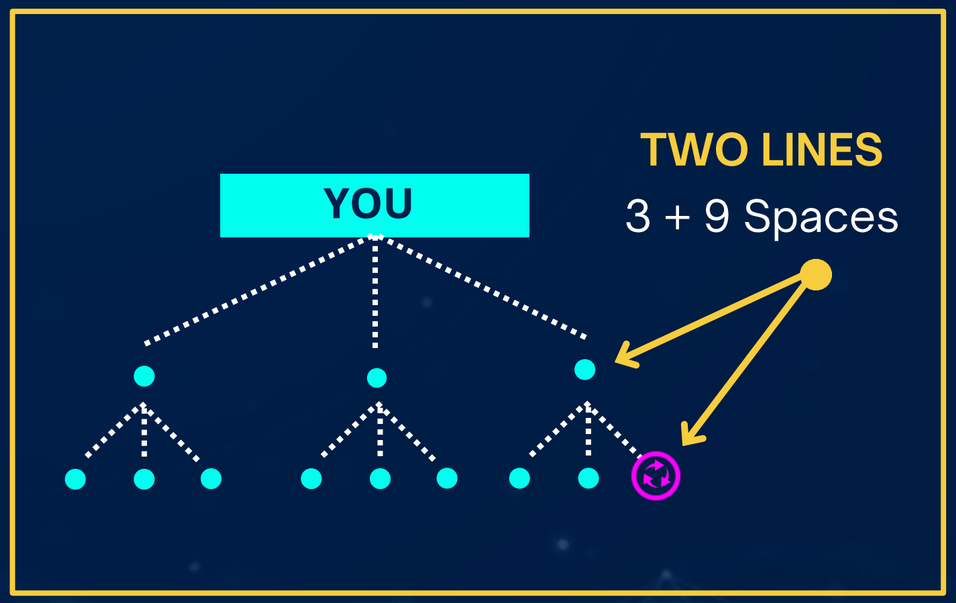
HOW DOES GENIOS CLUB WORK?



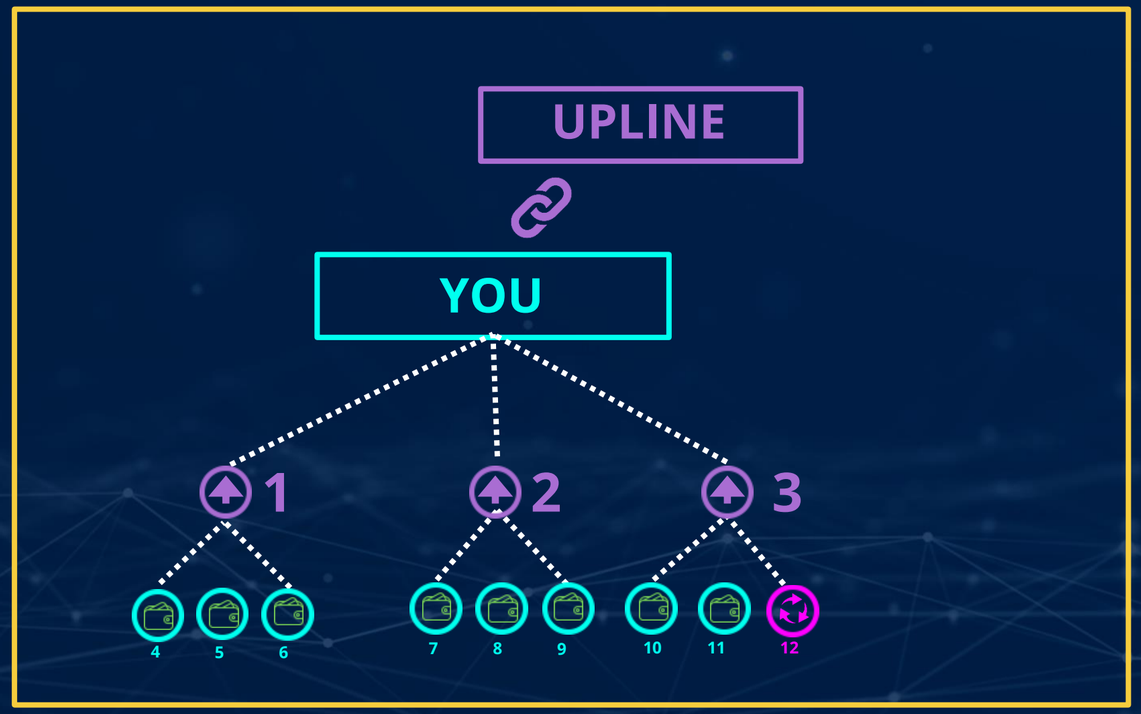
Solidarity matrix system
with 3 characteristics:

- Follow me
- No expiration date
- Unlimited recycling

The system consists of 2 lines:

- 3 positions in the first row
- 9 positions in the second row

SOLIDARITY MATRIX



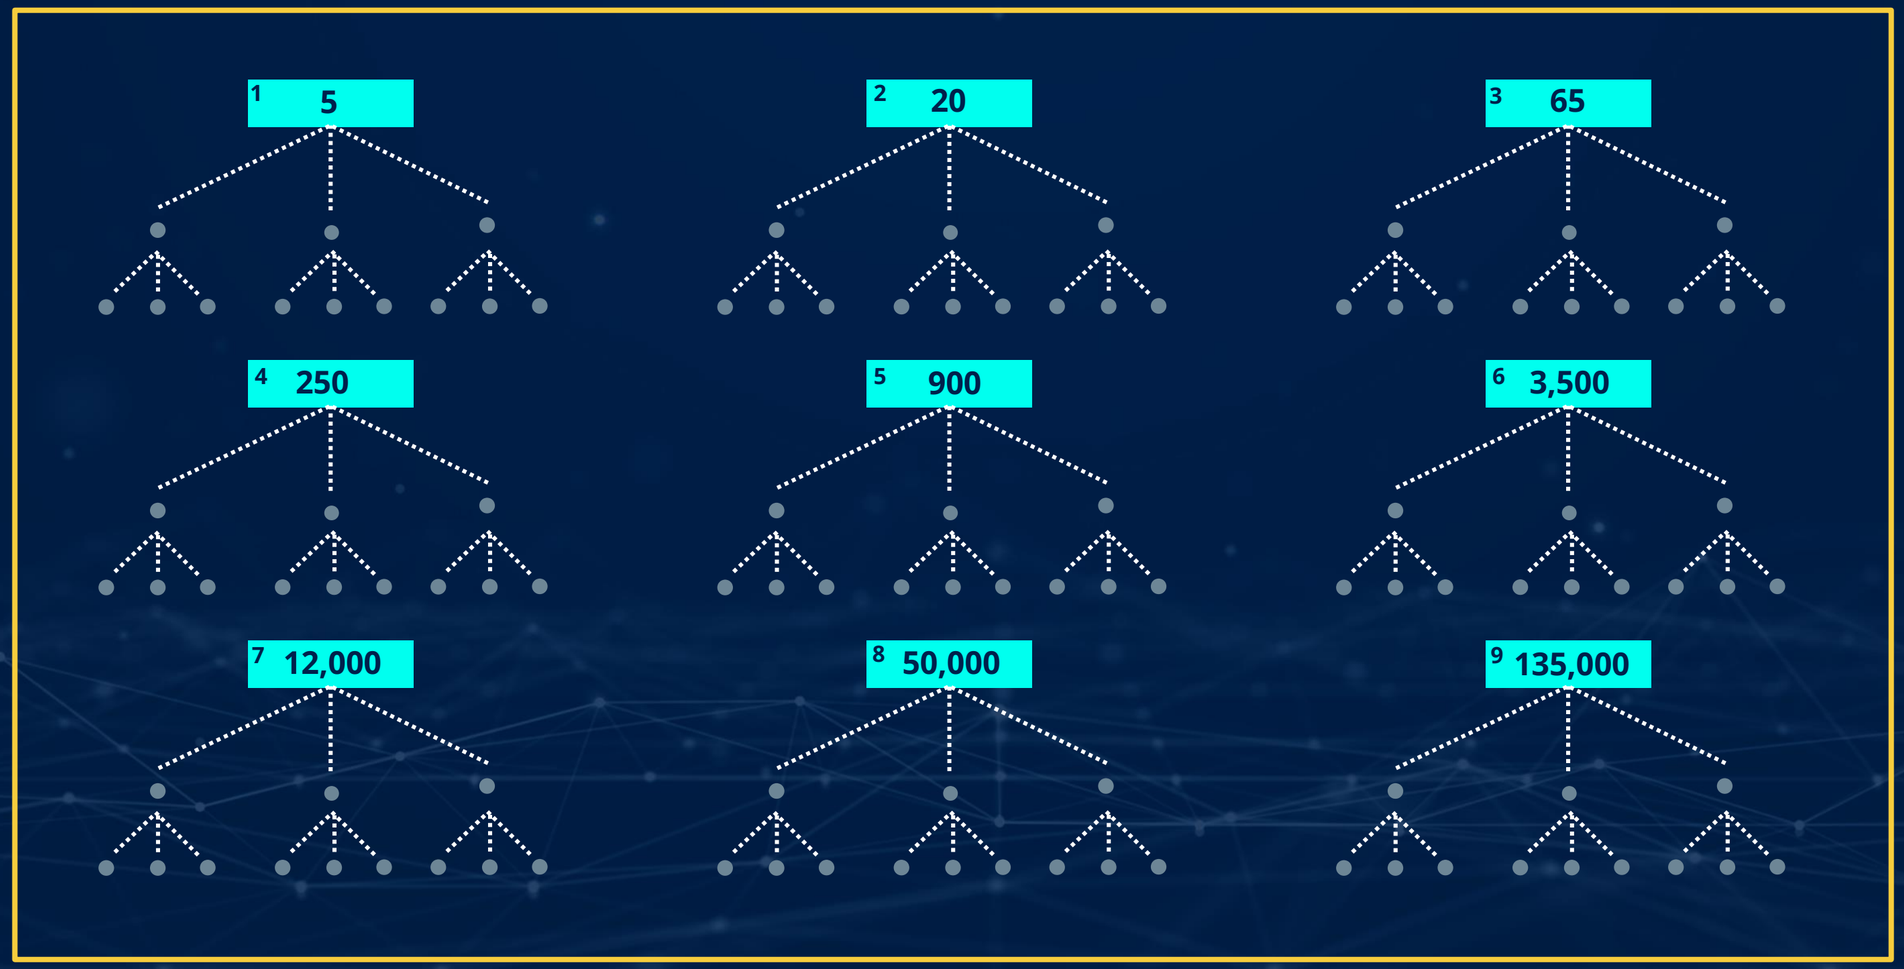
We are building a team together, there is an overflow from above and from below. The partners in your matrix can be:
invited by you, none invited by you or mixed.

The partners who occupy the three places in the first row below you move up for your higher partner or the team. 100% of those payments go to the account of your higher partner or the team.

You receive the payment of 100% of the first 8 partners who occupy the second line.

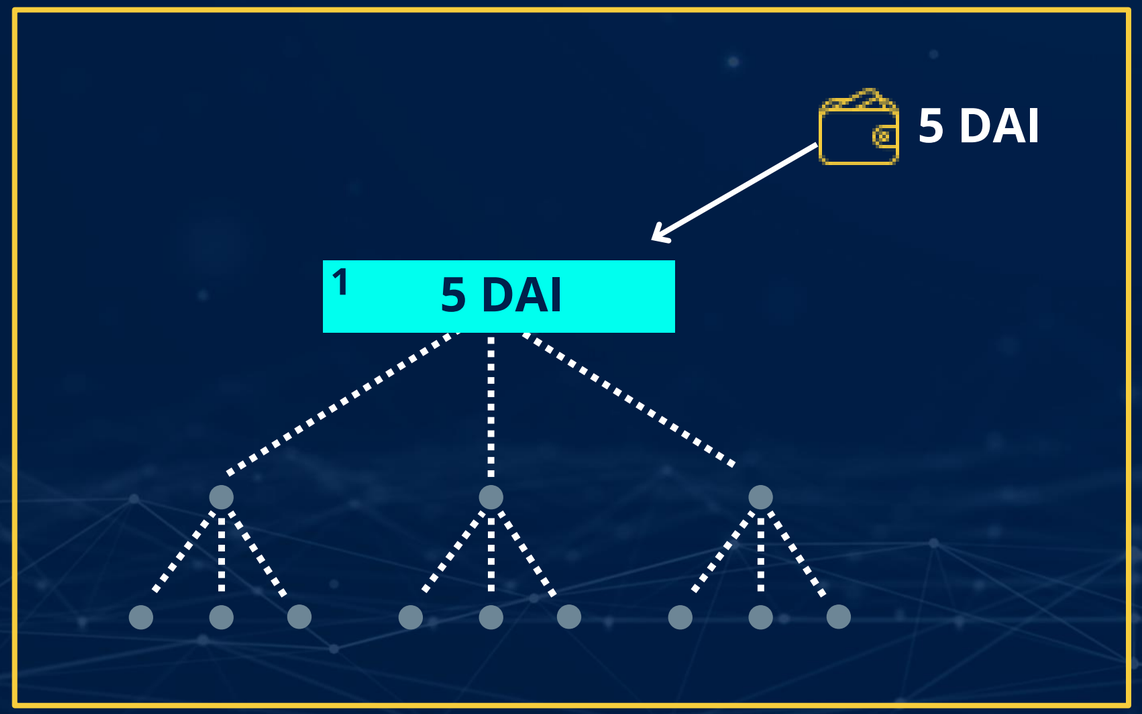
The last payment of the second line corresponds to the repurchase of the level, with this payment, the same level is bought again and 100% of this payment is transferred to your higher partner or the team.

LEVELS



- How many levels can be activated immediately? As many as you want!
- No active level has an expiration date.
- All active levels move and bring income in Parallel.

REGISTRATION

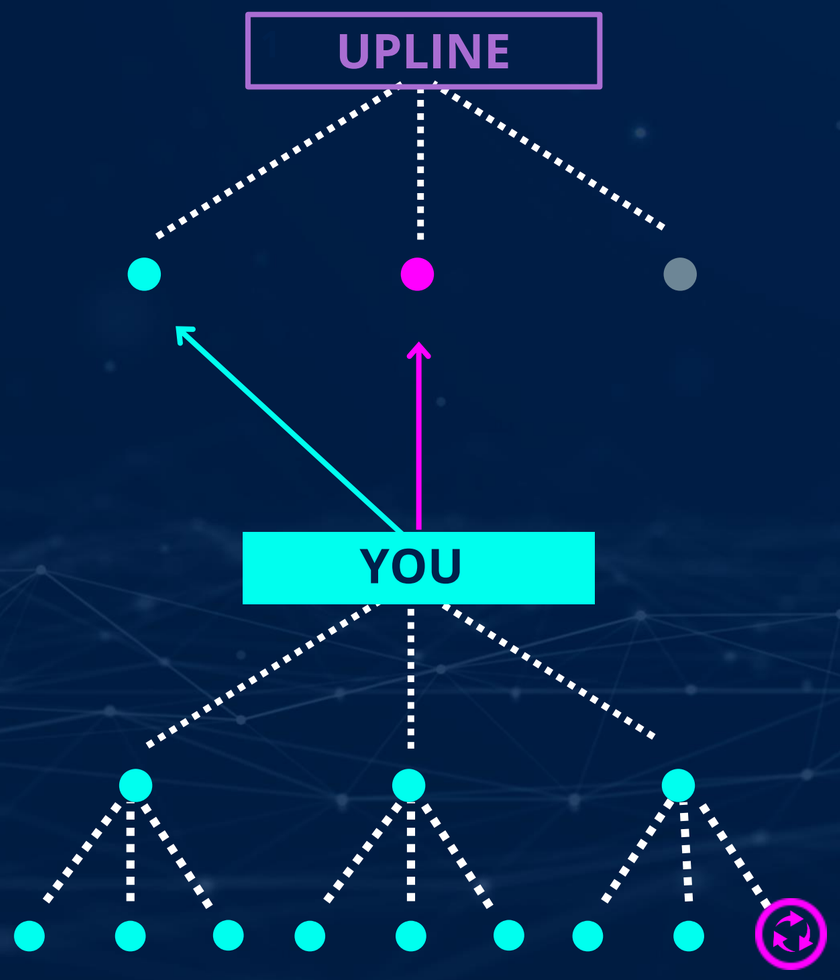


The first level of our solidarity matrix costs **5 DAI**.

You can purchase positions at all additional levels separately, in order from lowest to highest.

You cannot skip levels, that is, it is impossible to buy the third level without having the second one open.

RECYCLE



It consists on the reopening (purchase) of the current level.

Recycling opens the same space again for you so that you continue to receive income from it, without recycling, this space would be closed and you would not earn more from it.

Recycling is done automatically, as soon as the last free place in your matrix is occupied, the current space is closed and archived.

You go on to occupy a free space in the level of the matrix of your higher partner and your level opens again with free places to be occupied.

100% of the payment goes to the account of your higher partner.

Similarly, your referred partners will recycle and you will receive instant income at all times.

UPGRADE

UPGRADE - It is the opening (purchase) of the next space of the next highest level that you are occupying. The payment goes to your higher partner, as long as they have a space in this level.

Remember that recycling occurs automatically, if the next slot is not open for you, starting from the second round, after recycling, all payments will be redirected to a superior partner.

When you buy the necessary space, on the next recycle, your referred partners will take a place below you, and with each repetition they will take a place below you again.

Lost Profit: Payment is left to a higher partner due to failure to upgrade to a more expensive level.

Extra Profit: Payment received by you at the expense of the lost profit of an inferior partner.

OVERPASS AND BACK PLACING

- Direct Partner.
- Overflow from above: Partner personally invited by your superior.
- Overflow from below: Partner personally invited by your downline.
- Partner who overpassed his superior partner.

You can overpass your superior partner by opening levels that he has not yet reached, in this case, you get into his superior partner matrix, the closest one who has such a level that you have bought and the income goes to him.

If the next higher partner does not have this matrix available, then in the same way you are already overpassing two higher partners until the system finds a higher partner who already has an active matrix of this level.

The Follow Me system places back partners. This means that when your superior partner buys that space, after the next repurchase, you will return to occupy a place below him.

IT'S TIME TO WIN YOUR FIRST MILLION

SOLIDARITY MATRIX	DAI PRICE	TOTAL INCOME	INCOME MINUS NEXT LEVEL
1	5	40	20
2	20	160	95
3	65	520	270
4	250	2,000	1,100
5	900	7,200	3,700
6	3,500	28,000	16,000
7	12,000	96,000	46,000
8	50,000	400,000	265,000
9	135,000	1,080,000	1,080,000

How long does it take you to get from 5 DAI to 1 Million DAI?

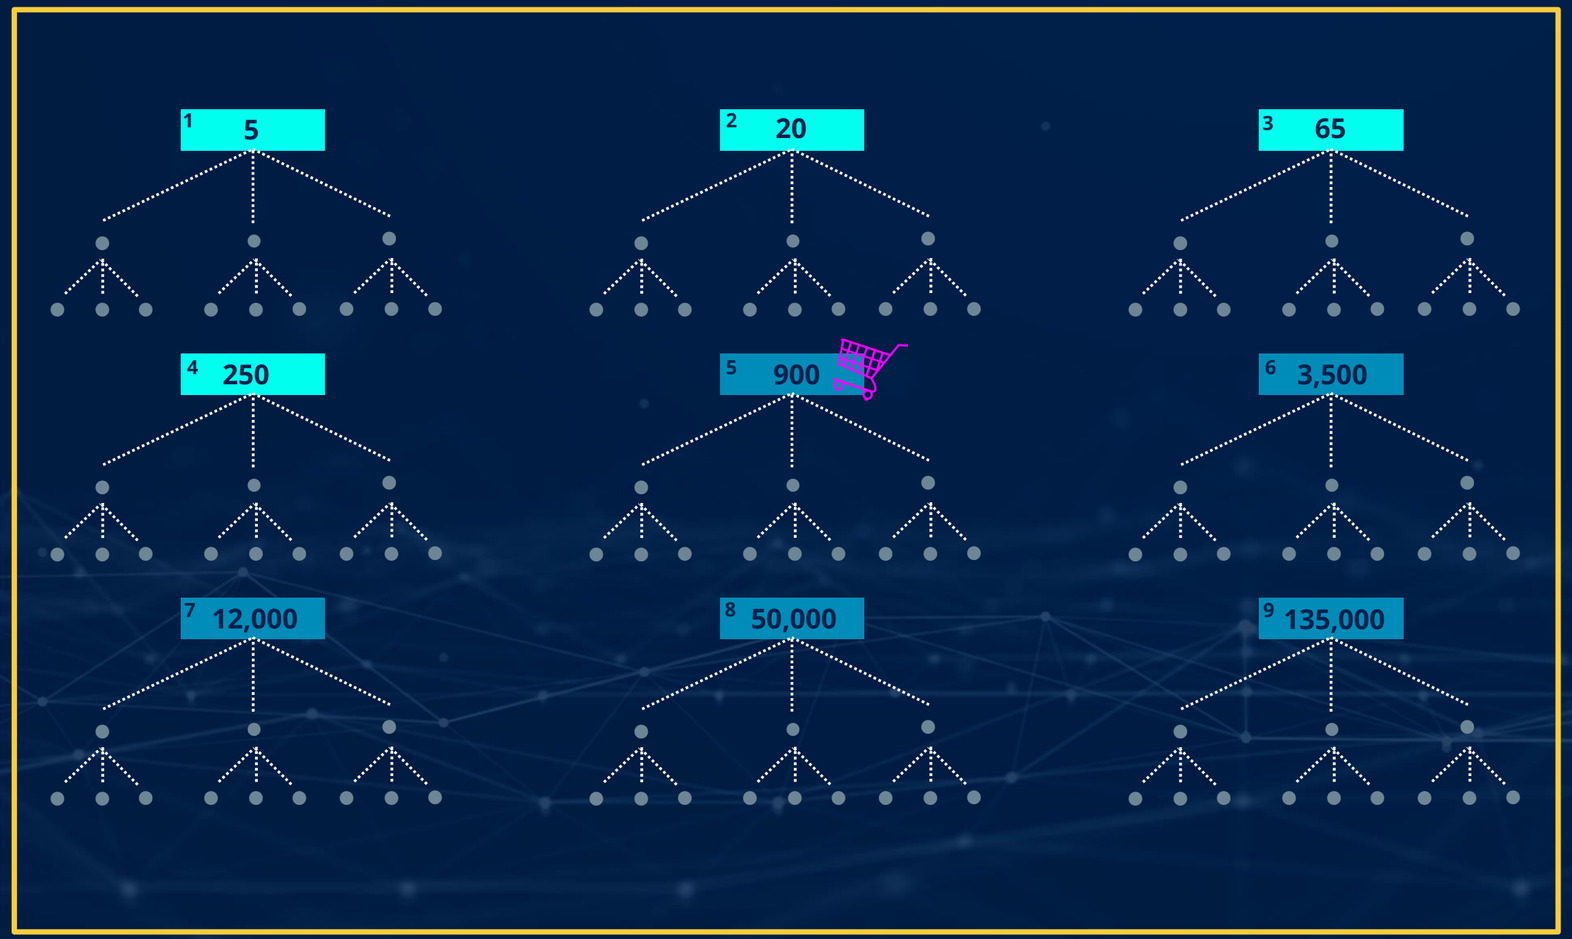
For each withdrawal the System charges 7%.
5% goes to the ranks fund.
2% goes to the marketing fund.

The ranks pool is distributed every 30 days.
Ranks prizes are cumulative.

RECOMMENDED START



It is recommended to activate at least the first four levels from the start, this ensures a powerful start and higher profit potential.

Of course, we all have to start with the first level, however, starting only with this one could quickly lead to overflow if your structure develops fast.

The most successful partners use strategies to start from several levels at once, setting an example for their partners who do the same. As a result, if you open more levels from the beginning your earnings will grow faster.

Many start from 5 levels at a time, some even from 6 levels or more.

5 20 65 250 = 340 DAI
